Children Force Firemen to Take Drastle Mensure.

An effective method for clearing the Aremen's path of children was demonstrated this afternoon in front of the tenement at No. 127 Mott street, when some firemen who were trying to extin-guish a blaze in a travelling tar boiler, and who were harried beyond patience by the children from three schools in the neighborhood, turned the stream in the air and wet everybody, including young-sters, within a block's radius. The youngers took the hint and the wetting.

The fire was in a tar pot on the back a truck belonging to The Germania ofing Company of No. 32 Sullivan treet . The flames burned all the wash ig drying on nearby fire escapes.
